BTG UPDATE

MAY 2023

BTG's successful completion of the Phase 1 report, followed by the recruitment of the Solution Development Working Group targeting 5-15 members, we have managed to recruit 9 individuals with different expertise across disciplines. The phase involved conducting two workshops, dedicated to reviewing the Phase 1 report and creating solutions through planning, designing, and analysis. The outcomes of these workshops led to the creation of the Solution Development report team, currently engaged in the development and testing of tools. In July, we aim to share these tools with families and community representatives, while engaging stakeholders in September to ensure their involvement and feedback.

CULTURAL PEACE FESTIVAL

MAY 2023

The International Peace Youth Group NZ branch organized a remarkable Cultural Peace Festival, bringing together diverse multicultural communities to celebrate the invaluable gift of religious and ethnic diversity. The event featured market stalls that showcased various cultures and organizations' activities, captivating cultural performances, and insightful keynote speeches delivered by esteemed community members. Additionally, a Peace Walk around the Western Springs area was organized to symbolize our collective unity for peace. ARCC actively participated in this Cultural Peace Festival by setting up an engaging stall, where we shared the impactful work of ARCC and Community Support Services with the attendees. There was significant interest, as many individuals were keen to learn more about ARCC's initiatives and contributions.

COMMUNITY SUPPORT SERVICES

APRIL/ MAY 2023

ARCC continue to support the community members with various cases such as housing, WINZ, immigration/UNHCR, etc. We have provided support letters or the letters of reference for the housing applications and visa applications. We also worked alongside with other partner organizations to deliver food parcels for the community members affected by the recent flood and cyclone.

RESETT TV TALKS

MAY 2023

ARCC has introduced a new feature to Resett TV Talk as part of the strategy for moving forward. This new feature brings a fresh framework and structure, along with exciting new topics.

The first episode of session two focuses on the discussion of the "Beyond Refuge" storybook. Our guests, Abann K. A Yor and Ehsan Hazaveh, join us for this episode, which is divided into three main parts.

In the first part, Abann shares the motivation behind creating the "Beyond Refuge" storybook. The second part sheds light on common stereotypes and misunderstandings about individuals with a refugee experience. Finally, the last part explores the process of creating the "Beyond Refuge" book. Through this discussion, we aim to provide the audience with a deeper understanding of the refugee experience."
